on the

Black Sea & Dnieper River

2018 MENNONITE HERITAGE CRUISE

This communal trip on the Black Sea and Dnieper River will be illuminating and enriching. It will put us in touch with our past, with each other and with ourselves, in ways we will likely find both surprising and satisfying.

Dear Passengers,

Welcome to the 2018 Mennonite Heritage Cruise
 There is something elemental about a river voyage, especially if it includes the sea. This is the way people have travelled for thousands of years. Not only do we visit a fascinating part of the world which has changed radically, ours is also a trip back in time to rediscover the heroic and tragic dimensions of the Russian Mennonite story, in the context of the world in which it took place. Through the prism or lens of illuminated history we gain new insights into the ancestral experiences which have individually shaped us and which affect our participation in the times in which we now live.
